It's safe to say you'll never change
Trust yourself you throw it away
Break yourself and break away
Nothing ever changes, nothing ever stays the same
You take a chance when you bring us down
Say what you want and you won't be found
You were lost in nothing, nothings
what your coming back for more
You felt it twice when you want to change
Your saying things and your not the same
You were lost in nothing, nothings were your
gonna drown again
It's safe to say you'll never change
Trust yourself you throw it away
Break yourself and break away
Nothing ever changes, nothing ever stays the same
Your not the same as you fade away
You try to change but it's not the same
You were lost in nothing, nothing's were your coming back for more
Your taking sides and it won't be mine
Step aside and you walk the line
you were lost in nothing, nothing's were your gonna drown again
It's safe to say you'll never change
Trust yourself you throw it away
Break yourself and break away
Nothing ever changes, nothing ever stays the same
