when you don't know & we're out of time and you don't  
show and we're hung to dry we take it to the streets  
with our fists held high singing to a chorus of one  
tonight

you know it's too late & we don't shoot straight we  
take it too the streets tonight

we're six guns south with our pistols by our sides,  
we pledge allegiance, freedom reigns tonight  
right or wrong heads too strong & we don't look back

and we're throwin' it all away  
on election day  
we led astray
