I picture the rain on windows  
and I think of home.  
I wonder if you remember  
did you ever know ?

Places I dream about  
I will be getting out  
then I can follow the sun.  
You will be with me  
I know you will give me  
a hand to get everything done.  
Call me number one !  
Call me number one !

Will I be afraid to tell you  
that I'm coming home.  
I'm ready to take the highroad  
I've been away too long.
