(scream)

I can feel it when I'm walking down the street
The kids are crazy but they know where to be
Well I forgot that you just gotta (catch it)
When we break it down it's just like magic

Get ready for the fight
Showing you the way
I wonder what it's like
Do I need to say to you
To get this party started

Listen

My eyes can't believe this mess
Get in line don't try to test
I got the dream that'll make you bounce back
Feel the beat feel the flow
It's time to go

Get ready for the fight
Showing you the way
I wonder what it's like
Do I need to say(to you)
To get this party started

We'll make that shittin' (scream)

I know that sometimes you just need to get away
Well that's cool with me
Whatever happens I just need to know that we can get
this party started

Today yeah
