yeah, here you come  
knocking on my door baby  
tell me what you got on your mind  
i guess those college boys all went home for the  
summer time

well your lookin right  
lookin good  
lookin like a woman should  
so why is it so hard to find  
a place to lay your pretty little head down once in a  
while

you run along a little tough luck baby  
dont you sweat it  
everything is waitin inside  
you know i got it, come and get it

whos your daddy  
whos your baby  
ya whos you buddy  
whos your friends  
whos the one guy  
that you come runnin to  
when your love lifes gone tumblin in

I've got the money  
if you've got the honey  
lets make a deal  
let's make a plan

whos your daddy  
whos your baby  
whos your honey  
whos your man

(instrumental)
