hey there, boy  
so good to see you again-  
i heard your woman left you-  
i heard you quit your band,  
how you on money?  
you still feeling that jones?  
man, you don't look like you used to  
my god, you look like a ghost

there's a riot goin' on  
inside of me-  
won't you come inside  
see what i see?  
them boys was drinkin'  
goddam, i got me a gun  
we goin' cappin later on-  
don't that sound like fun?

i know how to get my way.  
to make you love me- enchante'  
now, hey love you when yr alone-  
let's call jackie, see if he ain't home-  
baby, i'm alright-  
playin tricks with the light-

they love me down in texas  
my home while i'm away  
god knows, i got my reasons  
for every muthafuckin thing i say  
everytime you go away-  
take me down, i have gone astray  
take me down.
