Even if I lose my mind - I would never turn my back on
you
Even if I walked away - I would never forget you
Don't need to explain myself - Don't tell me what to do
F*** You!
Nor tell me what to say - I've done alright so far today
Go!
It's an underlying thing - You know what goes on
behind the curtain
The American people they don't know - Soon they will
you see
Should we follow and obey? - It's not as if we'll get our
way
The promises that are made- Get thrown out anyway
Subsystem don't work for me...
Subsystem nothing's for free...
They just don't work anyway.....
