everyday,i think about you.

how i want you so bad just to be with me.

i pray for that day to come.

so now i just wait for you.

When ever i see you i freeze,

i never know what to say

but what can i say to make you want me the way i want  
you.

One of this days you will want me the way i want you,  
and til then...

I will wait.

everyday, every minute, i think about you.

how i want you so bad just to be with me.

i pray for that day to come.

so now i just wait for you.

I dont know when that day will come, i dont even know  
if it will come.

but one thing i do know is that

with out you i am not completely.

i wake up every morning just to see you.

With out i wouldn't bother to wake up.

if only you could see what you do to me.

want i would do for you.

i think bout how you can make my life so much better,

you and me, that would make my life so much better,

just to know every morning that i will be with you.

everyday, i think about you.

how i want you so bad just to be with me.

i pray for that day to come.

so now i just wait for you.

Sometimes i wish i never met you so then i could go on  
living know there is no one like you out there.

one day you will be mine,

til then
