Martha will cut you  
Martha will beat you  
Martha likes the killing  
And you know that  
She's always willing  
Martha will tear out your guts  
Your blood will come in spurts  
Martha Splatterhead will show you  
Show you the true meaning of pain  
Martha will cut you  
Martha will beat you  
Martha likes the killing  
And you know that  
She's always willing  
Martha will tear out your guts  
Your blood will come in spurts  
Martha Splatterhead will show you  
Show you the true meaning of pain  
First slice you're not quite done  
Second slice down to the bone  
Third slice you're not dead yet  
Fourth slice kisses your neck  
You're fading fast  
From massive loss of blood  
She picks up a rock  
And crushes your skull  
From your throat  
Comes a gurgling scream  
She stabs you in the heart  
And licks her blade clean
