I can't handle it
What can i do to get you all my life
Playing silly games and messing with my mind

I can't handle it
I think that you just one to first this time
Now i movin on cause it's all over

Every woman - Every woman
Needs a man - Needs a man
The can hold ya and you understand - ya ya
But if you knew how de threat woman
She would'e stay
But it's all over now

And i can't take it no more and i'm ~ [?] out the door
But it's ok
That you not in my life but i know i be allright

I can't handle it
What can i do to get you all my life
Playing silly games and messing with my mind

I can't handle it
I think that you just one to first this time
Now i movin on cause it's all over

I can't handle it
What can i do to get you all my life
Playing silly games and messing with my mind

I can't handle it
I think that you just one to first this time
Now i movin on cause it's all over

You are alone - You are alone
And it's a shame - It's a shame
That things couldn't go the other way - ya
But it's too late gotta get away - Get away
It seems i been with you forever in a day

And i can't take it no more and i'm ~ [?] out the door
But it's ok
That you not in my life but i know i be allright

I can't handle it
What can i do to get you all my life
Playing silly games and messing with my mind

I can't handle it
I think that you just one to first this time
Now i movin on cause it's all over

I can't handle it
What can i do to get you all my life
Playing silly games and messing with my mind

I can't handle it
I think that you just one to first this time
Now i movin on cause it's all over
