A broken heart's a bird without wings to fly

Though your mind I can't be denied

A broken heart's the darkness out before the dawn

Why is it you're left lonely to the poor

If I had to try my best to remember when

a time with no memory of view

I close my eyes

And try hard to pretend

This heart's been broken once before

I know

Refrain I

A broken heart in a year it's given time

A broken heart needs all the strength you've got inside

A broken heart has no safe place to hide

A broken heart, so sure the world won't be the same

A broken heart can feel no desire

It leaves you where all that remains

I know

Refrain II

So do not harm so many words unspoken

It must learn this hurt will end

So if our tears should fall

Don't wonder why

>From now on it's for ever you

A broken heart can feel no desire

It leaves you where all that remains

It's a broken heart like a river that won't flow

You cannot do that to me

I know

Refrain I

A broken heart in a year it's given time

A broken heart needs all the strength you've got inside

A broken heart has no safe place to hide

A broken heart, so sure the world won't be the same

A broken heart can feel no desire

It leaves you where all that remains

It's a broken heart like a river that won't flow

You cannot do that to me

This I know

A broken heart in a year it's given time

A broken heart needs all the strength you've got inside

A broken heart has no safe place to hide

A broken heart, so sure the world won't be the same

A broken heart

A broken heart
