Verse:

You're flashing eyes are a beacon light
That guides my jetplane in the night
I just wanna be with you

Verse2:

Pick me up when I'm down
Feels so good when you're around
I just wanna be with you
I just wanna be with you

Chorus:

It's not blue the way it's been
It's not night or in between
It's not guilt at feelin free
Takes much more to conquere me
I just wanna be with you
I just wanna be with you

Verse3:

There's no place no person left
Don't wanna be nobody else
I just wanna be with you
I just wanna be with you... darlin...

Chorus:

It's not blue the way it's been
It's not night or in between
It's not guilt at feelin free
Takes much more to conquere me
I just wanna be with you
I just wanna be with you

I wanna be with you

I wanna be with you

I wanna be with you

Repeat another 12 times then screech off an ending of

I Wanna Be With You... yeahhhhh
