Do step inside it, you're all invited,  
you'll get excited when you see where we've gone,  
high over starred seas, I do what I please,  
no one to ask me why I've gone, why I've come  
Dreambuilder build a dream for me, bulid me a dream  
so that I can see,  
dreambuilder, build a dream for me  
You take me places, you show me faces  
you leave no traces when you're gone,  
high over starred seas, I do what I please,  
no one to ask me why I've gone, why I've come  
Dreambuilder build a dream for me, bulid me a dream  
so that I can see,  
dreambuilder, build a dream for me  
Look at my baby, she's such a lady  
she don't say maybe, when she sees where we've gone  
high over starred seas, I do what I please,  
no one to ask me why I've gone, why I've come
