(Brewster-Neeson-Brewster)
(Coordination -- can more than one thousand people
coordinate at the same time?)
Didn't ask to be here, taking what they're putting me
through
you can moan and cry and wonder why but there's
something else
you gotta do
Gotta live it up
baby live it up
yeah live it up
Nobody owes nothing, what you get is up to you
don't say you've done (you know) no dancing 'round
you got something else you gotta do
Gotta live it up
baby live it up
yeah live it up
gotta live it up baby
gotta live it up baby
gotta live it up
