### "Goodbye america"

yeah everything bothers me  
just about everything that i see  
no need for a flag or a country  
raise your finger if you agree

the problems won't go away  
if we keep our rage at bay  
the filth and slime will always stay  
if we choose to ignore and play

goodbye america! fuck you america! goodbye  
america! fuck you!

the stars and strips are prison bars  
they won't let you get too far  
the rule over many by the few  
you cant police my mind because i won't let you

Goodbye america, fuck you america  
goodbye america, fuck you!

pledge allegiance to your self  
not greed, power, war, and wealth  
remember you were born a human being  
not a part of their machine

Good bye america, fuck you america  
Goodbye america, fuck you!

NO MORE SOCIAL ORDER!
