[Originally by The Freeze]

The beginning of the end has come for me
And for everything I've done
The second chance has faded fast
My cruelty caught up with me at last

When talking bombs that scarred your face
I took and threw the truth away
I cut the chords and snap the chains
With the twisted lies I lay.
Go.

I found the nerve to look back at
The mirror in your eyes, all I saw were lies.
I found the nerve to look back at
The mirror in your eyes, all I saw were my lies.
All that's left are lies.
Go.

The beginning of the end has come for me
And for everything I've done
The second chance has faded fast
My cruelty caught up with me at last

When talking bombs that scarred your face
I took and threw the truth away

All that's left are, all that's left are lies.
All that's left are, all that's left are lies.
All that's left are, all that's left are lies.
All that's left are, all that's left are lies.
