"Follow Your Heart"

Visit "[Follow Your Heart](#)" on MotoLyrics.com

If your head is spinning round, and there never seems
to be a way out

If confusion wakes you up with unspoken rules you
never seem to learn

Lift your head up high, lift your head up high, lift your
head up high

We can learn to fly, we can learn to fly, come with me!
(Come on!)

Why don't you follow your heart, follow your heart, back
to me ?

If your spirit's feeling weak, don't let anyone push you
around

Other devils in your sleep will whisper rumours which
you never wanna hear

Lift your head up high, lift your head up high, lift your
head up high

We can learn to fly, we can learn to fly, come with me

(Come on !)

Lift your head up high, lift your head up high, lift your
head up high

We can learn to fly, we can learn to fly, come with me!
