"Come My Way"

Visit "[Come My Way](#)" on MotoLyrics.com

When you're aching with desire
And you can't put out that spark
I know, you've been waiting for this moment
To ignite your life
When you're standing at the station
And your brain's about to storm
And the eyes of the whole nation
Holding hearts

[Chorus]

Come my way, come my way
You should stop the fears that's on your my mind,
Embrace the moments that define us
Come my way,

Yeah you tell me devastation
And you say ... your balls
There's no time for indecision
Listen,

[Chorus]

Come my way, come my way
You should stop the fears that's on your my mind,
Embrace the moments that define
Come my way,

Why so afraid?
I will wait for you come my way

[Chorus]

Come my way, come my way
You should stop the fears that's on your my mind,
Embrace the moments that define
Come my way, X 2
