And only yesterday I loved you
And you said you loved me, too
But yesterday I thought we both knew
That our love would always be

We planned our lives together
Setting our hopes so high
You were my future, bright and clear
A rainbow filled my sky

And only yesterday I loved you
But today, it's plain to see
That when you said you'd love forever
I know now you didn't mean me

You were my future, bright and clear
A rainbow filled my sky
And only yesterday I loved you
But today, it's plain to see you didn't love me

When you said you'd love forever
Well I know now you didn't mean me
And only yesterday I loved you
But oh, it's plain to see

And, oh, when you said you'd love forever
I know now you didn't mean me
And only yesterday I loved you
But oh, it's plain to see
That when you said you'd love forever
Oh, I know you didn't mean me

And only yesterday I loved you
But oh, it's plain to see
That when you said you'd love forever
I know you didn't mean me

And only, only yesterday I loved you...
