

The Urge

"Divide And Conquer"

Visit "[Divide And Conquer](#)" on MotoLyrics.com

Raised under the living sun, the watchman looking out,
looking out. Born under the lion, could be a sign,
Marcus in time would lead us through out lives.

For service Lord o' let me live. My love, my all to others
give. For service Lord o' let me live. My love, my all to
others give.

Divide and conquer, createed and angered a brown-
skinned monster. So full of hate, self-destructive by
design, destined to fail, we rose up from the slime.

For service Lord o' let me live. My love, my all to others
give. For service Lord o' let me live. My love, my all to
others give.

Justice be served to all mankind. Searching for
identities we left behind. One God, one aim, one
destiny. Rise up! Rise up! Rise up! Rise up!

Moses lead your people to a place in their hearts, in
their minds. Moses lead your people to a place in their
hearts, in their minds.

Divide and conquer, createed and angered a brown-
skinned monster. So full of hate, self-destructive by
design, destined to fail, we rose up from the slime.

For service Lord o' let me live. My love, my all to others
give. For service Lord o' let me live. My love, my all to
others give.
