words & music by East Bay Ray

If your machine might slip a gear

Push this button to help it clear

Your time card says your name's Joe

But we'll call you 6-3-0

CHORUS

I'm working at my job

I'm so happy

More boring by the day

But they pay me

All that time spent going to school

Just to end up following--rules

CHORUS

Now it's time to take a break

Don't stray too far or you'll be late

Thank you for your service and a long career

Glad you gave us your best years

CHORUS
