Once I had a close friend  
I knew him for quite a while  
He seemed all right to me  
We had this deal together  
Tied up my money and time  
And then he went away  
Taking all that was mine

(chorus)

Oh, well, things crumble to an end  
Hell, we all die in the end  
Die in the end

Once it was fun to worry  
About who was in control  
Could look into the future  
But now it don't seem right  
Passion is filling the air  
Profits and better than life  
And things are harder to beat

(chorus)

It's a dead end  
Dead end

Dead end

Once I had a lover

I knew her for quite a while

She seemed alright to me

But then she was gone

She took my lovin' and my time

Taking all that was mine

And leaving me far behind

(chorus)

It's a dead end

Dead end

Dead end
