words & music: D. H. Peligro

Hellnation's when they teach us

Profiting from greed

Hellnation's what they give us

Coke, heroin & speed

Hellnation's when they tell you

You gotta go clean up your act

You're the one who dragged me here

And now you drag me back

To this Hellnation

CHORUS

Problem is few care

About the people in despair

If you help no one

You're guilty in the Hellnation

Hellnation's when the president

Asks for four more fucking years

Hellnation's when he gets it

By conning poor people and peers

Hellnation--got no choice

What's the point of trying to vote?

When this country makes war

We all die in the same boat

In this Hellnation

CHORUS

It's the only world we've got

Let's protect it while we can

It's all there is and there ain't no more

Hellnation--asking please

For a nuclear freeze

So the unborn kids

Get their chance to live and breathe

Hellnation asking aid

For the minimum wage

So the kids of tomorrow

Don't wind up slaves to their trade

In the Hellnation

CHORUS

This Could Be Anywhere
