Bye, bye city gonna set my soul
its gonna set my soul on fire
got a whole lotta money thats ready to burn
so get those stakes up high
there's a thousand pretty women
waitin out there
there all waitin on every care
and im just a devil with a load to spare so
viva las vegas
viva las vegas
viva las vegas
how i wish that there were more
than the twenty four hours a the day
and even if i ran outa speed boy i wouldnt sleep a
minute away
oh theres blackjack and poker and the roulette wheel
a fortune of mine lost on every deal
all you need is sonar and the nerves of steel
so viva las vegas
viva las vegas
viva las vegas

viva las vegas where the neon signs are flashin and the
one-armed-man is chrashin

all lost down the drain

viva las vegas turnin day into night

im turnin night into day time

if you see it once

youll never be the same again

gotta keep on runnin

gonna have me some fun

if it costs me my very last dime

if i wind up broke then ill always remember that

i had a swingin time

oh im gonna give it everything i got

lady lucks with me

the dice stay hot

got coke up my nose to dry away the snot

so viva las vegas

viva las vegas

viva las vegas

viva

viva

las vegas
