

The Urgency "Rooftops"

Visit "[Rooftops](#)" on MotoLyrics.com

Step by step
I climb to you
Floor by floor
Steps ascend up to the roof
I must be dreaming

'Cause when I close my eyes
It takes me back to city skylines
To summer night I spent inside
... of you

Here on your rooftop
The moment is right
We'll come together, light up the night
Over the rooftops
And under the sky
When I'm around you I get high

Back to ground again
Like snow I'm falling
My heart beat races back up the stairs
But you're never there waiting

But when I close my eyes, it takes me back to city
skylines
To summer nights I spent inside of you.

In your eyes I see for miles

In your eyes I see for miles
