Did you ever wonder to be loved like this?  
Have you ever wanted to be hurt like this?  
Did you ever show'em a pure hate like this?  
Did you ever ask'em to be fucked like this?

Don't cry (but) try to undermine  
Every aspect of your life

We don't understand what's goin' on  
Every lie we read, it's true

Have i ever needed a president like that?  
Maybe i always wanted somebody to laugh at  
I fancy i won't forgive him to be rot like that  
I'm not gonna ask god (to) become the main deadhead

Don't cry (but) try to undermine  
Every aspect of your life

We could live without your good face  
The toilet won't flush, for sure

Don't cry (but) try to undermine  
Every aspect of your life

We are not complaining of life as is  
But every shit i see, it's true

It's true x4
