"Into The Night"

This illusion, this confusion, bleeds like tears in my
veins
Soft obsession, cold possession, poison dreams
remain
Your desires shred my innocence, passion lost in time
Tattered feathers froze in silence, broken wings take
flight

Into the night, I'll walk through this fire
Into the night, I'll lay down my sword
Into the night, the truth is unfolding
I'll follow the light (follow the light)
Into the night

All your secrets breathe like fire, burning deep in the
night
My confession to the question, words that I could not
hide
This illusion, cruel confusion, take this veil from my
eyes
Your expression fades to black now, broken wings take
flight

Into the night, I'll walk through this fire
Into the night, I'll lay down my sword
Into the night, the truth is unfolding
I'll follow the light (follow the light)
Into the night

Into the night..
Into the night..
Into the night, the truth is unfolding
I'll follow the light (follow the light)

Into the night, I'll walk through this fire
Into the night, I'll lay down my sword
Into the night, the truth is unfolding
I'll follow the light (follow the light, follow the light)

Into the night, I'll walk through this fire
Into the night, I'll lay down my sword

Into the night, the truth is unfolding
I'll follow the light (follow the light, follow the light)

Into the night, I'll walk through this fire
Into the night..
