ooh....

ooh...

Northern lights
Light the skies
silent signs
warning words**

Midnight is waiting
Is anticipating the movement around the stars
Clouds seperating, the rain slowly fading
Revealing the cold northern lights

Brilliant storms light up the night sky
Magic and mystery surrounding
Leading me into the white lights affair
Everyone's aware**
Peace is my prayer
Peace is my prayer

Nobody knows if the streaming lights moving
sound only the angels know
hiding like lanterns in dark empty caverns
they're keeping the cold northern lights

Brilliant storms light up the night sky
Magic and mystery surrounding
Leading me into the white lights affair
Everyone's aware**
Peace is my prayer
Peace is my prayer

Brilliant storms light up the night sky
[Brilliant storms light up the night sky]
Magic and mystery surrounding
[Magic and mystery surrounding]
Leading me into the white lights affair
[Leading me into the white lights affair]
Everyone's aware**
Peace is my prayer
[Peace is my prayer]

Peace is my prayer
[Peace is my prayer]

Solemnly** carrying curtains of light
Gently touching her mountainside
Silently whispering secretly shadowing
Brothers** of cold northern lights

Brilliant storms light up the night sky
Magic and mystery surrounding
Leading me into the white lights affair
Everyone's aware**
Peace is my prayer
Peace is my prayer

** (best guess I could make)
