All I could do was sigh and feel my heart break  
When you came to me and told me it was over  
The look in your eyes was oh so cold and distant  
One more request was all that I could hope for

One more dance, one last chance  
To tango  
You and me, and a waltz in three  
We could swing and sway  
As we move to the music  
Dance til the darkness fades away

Living without you wasn't what I planned on  
Having you by my side was all that I knew  
Now that you've gone away and left me standing  
One last request is all that I ask of you

One more dance, one last chance to tango  
You and me, and a waltz in three  
We could swing and sway  
As we move to the music  
Dance til the darkness fades away

One more dance, one last chance to tango  
You and me, and a waltz in three  
We could swing and sway  
As we move to the music  
One more dance, our last chance  
To move to the music

Dance til the darkness fades away  
Just one more dance and I'll be on my way
