I'm gonna miss you buddy, - you were the best pal in the world - I feel real bad - 'cause your going away - but things will be better in the other world - when you get to heaven - I bet your legs will work again - you can run around like years before - and you'll be surrounded by your friends - They'll never have to pick you up - out of the mud, - your hair will grow back - and you'll have a lot of fun - Yeah - I think about the good times, - like when I dressed you up in human clothes, - peanut butter on the roof of your mouth, - chase you around the back yard with the hose - You were my constant companion - but now you don't recognize me - your eyes are blind and dad says - we should let you die with dignity - You knew where we were going on that last ride - when I promised mom & dad I wouldn't cry. - I think it's the right thing to do - if your in pain - Canine Euthanasia - seems more humane - Now sometime has passed - since you have gone away. - I got a new pal - and he's really great - but I think about you every day - I miss you more than any girl, - you never let me down. - Where ever you are - I wish I was there - I was always happy - when you were around. - Sooner or later everyone dies - but I wish I never had to say good-bye -
Goodbye
