Gonna change the world  
With my hockey stick  
Gonna make a real difference  
Feed the poor and heal the sick

Iâ€™ll practice in my yard  
Or in the showers every day  
Until I get so goddamn good  
That someone really super rich will say  
"Hereâ€™s a million dollars  
You can spend it how you like,  
You can change the fucking world  
Or turn it into something nice"  
Iâ€™ll use my stick for foreign matters  
Giving meaning to our planet  
And anything we ever wanted  
We will get to have it  
And itâ€™s all thanks to my hockey stick  
And skill in which I use it  
A hero to humanity  
I swear I wonâ€™t abuse it

Iâ€™ll change the world  
Iâ€™ll make a difference man  
Iâ€™ll change the world with my hockey stick  
Solving all our problemsâ€™...

Like crack and aids and murder, violence, syphilisâ€™...  
Global warming, floods and arson, rape, and birth  
defects  
And things affecting ever person  
War on crime and racism are problems of the past you  
see  
Thanks to the greatest hockey player  
That would be me  
World leaders are united  
From the joy to watch me playing  
As the planet gathers â€™round  
For the chance to hear me saying  
"This place is now utopia  
And heaven is on earth"  
Me and my hockey stick

Can finally built this earth

I changed the world  
I made a difference!  
I changed the world with my hockey stick  
I changed the world  
Yeah!  
I changed the world with my hockey stick  
I solved all our problems

People don't appreciate the glory I have brought them  
I saved this planet in its darkest hour  
So they will grovel beneath the man that saved them  
from the curse  
Appoint myself ruler of the universe

And lots of family masses they will grovel at my feet  
And their lives will serve no purpose  
Other than to honor me  
And this stick it will now rule their lives  
And dictate all their thoughts  
And I'll re-write our history  
And thus reside as God

I'll rule the world  
I did it!  
I'll rule the world with my hockey stick  
I'll rule the world  
Yeah!  
I'll rule the world with my hockey stick  
Just because I am that good
