Voices! you're letting voices tell you what to do
When you yourself don't know
Voices! you got one too, so let it out
And let us know when you're feelin' all alone

Well I know
There are times when you're feeling close to the
ground
And there's times when you may feel there's no place
to go home
And there's times when your best friend just seems so
far away
And there's times when the only end in sight is the end
You've got to
Come out fighting! come out fighting! come out
fighting
Don't let it get you down

Problems! I've got 'em too but
Keeping them inside is not the thing to do
Problems! you've got to face hang ups head on
Before you know they're hangin' you

Well I know
There are times when you're feeling close to the
ground
And there's times when you may feel there's no place
to go home
And there's times when your best friend just seems so
far away
And there's times when the only end in sight is the end
You've got to
Come out fighting! come out fighting! come out
fighting

All alone yes all alone
Loneliness It is something we all know
Woo all alone, yes all alone
Been there before so please believe me 'cause I know

Woo sorry to say
To your dismay your life is not the only one that you

affect
Don't you realize
That a part of all of us will die inside when you yourself
are dead

Well I know
There are times when you're feeling close to the
ground
And there's times when you may feel there's no place
to go home
And there's times when your best friend just seems so
far away
And there's times when the only end in sight is the end
You've got to
Come out fighting! come out fighting! come out
fighting
Come out fighting

Warning you, warning you, warning me
