For all those who've failed - you will have your day -
and you'll hear them say - "I don't understand how
things went wrong, - I've always been great, good-
looking and strong" - When they feel like you have all
the time - It's your revenge - FAILURE - I guess that's
life, - failure is the best revenge - Be proud of your
flounders - and falter with pride - Fail without shame -
'cause you never tried - Don't bother building a trophy
case, - Unless they start handing them out for last
place - Be humble because no one is safe - It sneaks
right up - FAILURE - Everybody join the club, - Failure is
the best revenge - FAILURE - Only one way of doing
things right, - but a thousand ways wrong, - so join the
fight. - In showing the winners we don't play their
games, - an army of losers - retarded and lame - a
chance to unite - 'cause we're all the same - It's great to
be a - FAILURE - Never try - Failure is the best revenge -
Avoid mediocrity - and run the other way - Stay at the
bottom - you're welcome to stay - Make them
remember you for failure without match - Every defeat
is a feather in your cap. - I give a crap - We all belong -
FAILURE - One billion strong - FAILURE - come join the
club - FAILURE - Never try - Failure is the best revenge.
