Mustache is a symbol of repression and of hate Never
trust a man with a butt
broom on his face It's the facial marking of the man
who holds you down The
source of all your problems, every city, every town
Stalin, Hitler, Schneider,
just to name a few got to kill the mustache before it
grows on you Fight!
The mustache power! (x3) Fight! Fight! Fight! Mustache
is authority The world
is run by assholes They try to run our lives from their
golden mustache
castles The Dark Prince was a nazi, his mustache true
to form instead of arm-
band swastikas, mouse ears must be worn He
terminates employees with the hair
above his lip 'cause in the Fuhrer's kingdom it's
dictatorship We should take his
frozen corpse and shave his fascist face and make the
magic kingdom a truly
happy place Fight! The mustache power! (x3) Fight!
Fight! Fight! Pigs across
the nation dressed in uniform with their gun and
badges, a mustache must be
worn they beat the population with their clubs inflicting
pain with mustache
anonymity, they all look the same we must join
together till the mustache is
removed and then we'll have a party with beer and
chicks and food.Fight the
power! Fight the power mustache! Fight the power!
Fight the power mustache!
