"Tastes Like Chicken"

Visit "[Tastes Like Chicken](#)" on MotoLyrics.com

First I think of myself - then I know some food I have to buy - Then I think of my health, - and I know that living things must die - I'm taking the time, taking the time to understand - why you and me were never meant to eat a bird that fly's - How does it make you feel? - To take a life for just one meal - The deal, two drumsticks and a breast - just leave you so depressed that I must stress - Do not eat the chicken! - Now back to my health - I really don't need the vegetable - All covered in filth, - it's almost uneatable - Meat makes you strong - so strong that you can say - Who's the man? Who's the man now? - 50 serving from just one cow - How does it make you feel? - To take a life for just one meal - The deal, two drumsticks and a breast - just leave you so depressed that I must stress - Do not eat the chicken! - I can taste the feathers in my mouth - Such a waste of time - 1 life - 1 meal should be a crime - Eat a bigger bird - 1 turkey - 10 people can be served - I don't care how they're raised, - hormone injected do not phase me - You can stuff your free range chickens - I wont eat a bird that fly's - How does it make you feel? - To take a life for just one meal - The deal, two drumsticks and a breast - just leave you so depressed that I must stress - Do not eat the chicken!
