Make the world go round

Started with a dollar, started with a dream,
never played the lotar when got it by any means,
got it from main feam, post it up on ..seen
I went from ..to classy and my hands are..green
I'm talking to heavy green growing like literally
tryin to be a major I upgrade it from the..leave
when ain't got a loyalty, then it grow a little bigger
'cause when it happen major I ain't on rock with you
and when you cop A everybody wanna pipe with you
and when you not the same niggas may they not with
you
I live by loyalties, never buy loyalties,
so when I'm care bout you because we all gonna eat
I keep on hide on the prize when you're gonna sleep
this .. may be in the grass, the rasper on your Gs

But think of me the world go..
and through the..
changin fear for ..
the wonder bout
Make the world go round

Started off over Twitter she became an instant fan
she like the pictures and I'm post it on InstaGram
she talking bout me when she posting the InstaGram
and trying be my baby lady I ain't in my..man
I'm in the business man talking bout them didges man
type of money and the voice a hundred if I'm..
I came from breaking fortune could can make it wishes
man
this smoking purple haze up and we kill the cam,
damn money make the world go round
and now money good enough to make your girl go
round down
she thinking off so she want me going in the back
this bitches loco even told me going in her ass,
she all to my cash man I'ma hater mass,
then I'ma head in pass like Stacey got her dash

But think of me the world go round me up
I am still relaxed, no I'm looking like money
I know..like money, no I'm feeling like money
so I know they want the money
changen fear for ..
the wonder bout..
Make the world go round

Started with the..then I wait and got a benz
I bought her.. and shit this got to get
I'd rather round and get it so you know what's mine to
spit,
my money coming in like I ain't this doubling
pax never rumbling backs keep running in,
I'm at the jeweler and think the ..going dumb again
they stuck on stupid so that never mean I'm stuck with
them
sayin they don't fuck with me, no
I don't fuck with them
money make the world go round, make it go up and
down
and through the up and down real nigga stuck around
they turn the rider a turn with..
follow the money but don't ever let miss got your man
all I know is turn the friends the foe
and good girls turn the hoes off for the dough

But think of me the world go..
Kid it's a true story though like
ain't nothing made it up with this man like
big money, spend money, and I will go man
money make the world go round up
but this road 2 riches,
you wanna bark on many journeys
if you over come it,
it goes to worth it.
road 2 riches baby
You know.
