I put my ear against your back and held you.

My body is kind of like a borderline, a hinderance.

It's as if you're going to go somewhere.

But if I keep them in, such feelings will tear me apart.

I want to get closer and closer [to you]

in a world that's no more than 3 meters away from you.

Taking turns pumping the pedals

Passing over bowing sunflowers

Taking in the steady wind, yeah, as if we could fly.

For the first time, I felt your heat.

I want to be stronger than anyone else!

With warm rhythm

Two hearts beating as one

Lip to lip, eye to eye, hand in hand.

God doesn't forbid anything at all.

I love you. I love you. I love you.

I haven't learned my lesson yet;

but an adult wouldn't understand.

It's painful and distressing,

wanting to show you my feelings; feels like I'm gonna burst.

I'm looking the other way, waiting, so  
take the hand that's hesitating in your pocket  
and touch my cheek.

Put a spell on me with loving power.

[Instrumental]

We always took the long way home together.

The sky seeming to overflow bitter orange

Sort of happy & sad

Why were "we" born?

We're 1/2 of each other, right?

I try thinking by myself, but

as I expected I'm not very good at it.

I envied the strong person who was able to throw

a ball so far that it went out of sight,

and wanted to become a boy.

Softly, like calm water

I want to be stronger than anyone else!

Like when I was small

Isn't it strange, my tears are falling

Lip to lip, eye to eye, hand in hand.

The same entity, feeling the same thing.

I love you. I love you. I love you.

I haven't learned my lesson yet;

but an adult wouldn't understand.

Even though I was told I wouldn't be able to reach,

right now, I just want to jump!

I'll give you a bye-bye kiss,  
the distance of the final step,  
so hold me even more,  
as if to keep the sun from setting.

[Instrumental]

We watched the lone sun setting together, just the 2 of  
us.

It was absolutely beautiful.

It's just somehow I can't say it, somehow it's not  
enough.

[Instrumental]

On the day when this world explodes,

just like Nostradamus predicted,

I want to become one with you!

With warm rhythm

Two hearts beating as one

Lip to lip, eye to eye, hand in hand

God doesn't forbid anything at all.

I love you. I love you. I love you.

I haven't learned my lesson yet;

but an adult wouldn't understand.

It's frustrating and distressing,

wanting to show you my feelings; feels like I'm gonna  
burst.

I'm looking the other way, waiting, so

take the hand that's hesitating in your pocket

and touch my cheek.

Put a spell on me with loving power,

as if to keep the sun from setting.
