So, I got a sign
It came from the sky
And told me I should say goodbye

I guess I should get out of this place
Find a new home, see some new faces
I lost my grip, I'm unequipped to get through
I'm trying to ignore you

These thoughts in my head reside in my bed
I'm supposed to be alive but I feel dead

Get out of my head
I don't want you there
I don't want you there
So, get out of my head
I don't want you there
I don't want you there
So, get out

So, I missed the bus, this sucks
The stars are not alive, but, boy, I had a good time
So much to blame

Painful connections from silent discussions
The party's over now
I'm rightside up from upside down

But at night, I still cry
I said I was a big girl, but I lied

Get out of my head
I don't want you there
I don't want you there
So, get out of my head
I don't want you there
I don't want you there
So, get out

Get off this roller coaster ride
The only way I might survive

I wanna start a new day
But you'll never go away

Get out of my head
I don't want you there
I don't want you there
So, get out of my head
I don't want you there
I don't want you there
So, get out

Get out of my head
I don't want you there
I don't want you there
So, get out of my head
I don't want you there
I don't want you there
So, get out
