Put up your fight  
They're wrong, you're right  
Just stand so tall  
So they can't make you fall

You're strong, they're weak  
Your will to be free  
Is everything you need  
It's all you need

You're just trying to be yourself  
And it's harder than you expected  
You're just trying to be yourself  
Trying to stay unaffected

Your light is bright  
A soldier's strongest might  
A playing symphony  
A sound and sight to see

So take it all in stride  
When all the minds collide  
You're here to spread your wings  
And all it brings

You're just trying to be yourself  
And it's harder than you expected  
You're just trying to be yourself  
Trying to stay unaffected

You're just trying to be yourself  
And it's harder than you expected  
You're just trying to be yourself  
Trying to stay unaffected

And it's harder than you expected  
You're just trying to be yourself  
Trying to stay unaffected
