My orchards growing lightning
Your haircut turns to worms
My cocaine turns blue and stops breathing
Your collarbones snap like a snare drum hit
Your children start speaking hieroglyphics
Your moon's deep purple bruise
My T.v. plays a tape loop
Of humans evolving into skyscrapers

The whales are drowning
All I hear's a sickening grotesque tone
The sky is changing colors no eye has ever known
So grab your pistol, grab every bullet that you own
Your face is changing shapes that no bone has ever known

Everybody, get the fuck out
Everything is so fucked up now
Mass exodus! Black streets bleached black
Everybody, run like hell
Everything is fucked to fuck now
Mass exodus! Freeways jam packed

Gulls with childrens faces
Drop exclamation points
There's flood water at your ceiling
You're on a raft made of family portraits
And all my teeth, they fall out
Your fingers turn to tongues
My pregnant wife just gave birth
To a mushroom cloud shaped killer bee swarm

The whales are drowning
All I hear's a sickening grotesque tone
The sky is changing colors no eye has ever known
So grab your pistol, grab every bullet that you own
Your face is changing shapes that no bone has ever known

Everybody, get the fuck out
Everything is so fucked up now

Mass exodus! Black streets bleached black
Everybody, run like hell
Everything is fucked to fuck now
Mass exodus! Freeways jam packed

I think the earth has stopped spinning
It's been twilight for fourteen days
I hear that old familiar sound
Of someone playing the national anthem

Everybody, get the fuck out
Everything is so fucked up now
Mass exodus! Black streets bleached black
Everybody, run like hell
Everything is fucked to fuck now
Mass exodus! Freeways jam packed
