Intro:

Welcome to my world

I always think that everyone rapes someones girl

But that's only what my words say

And it seems like everyone is against gays

And...

Chorus:

Everyone always says that I am so ugly

That's maybe why no one likes me

But I always say when I will get pretty

then every girl in this world wanna get me

Verse1:

So let's go, I'm ready to blow

Blow your ass more than you know

Hello there people you all act evil

That's why I hate you all people

And they said:

"Kepam you're the man"

"Kepam change your name to shitman"

"Kepam I just hate and hate your music"

"Kepam please go and read some physics"

Let me now tell you all some new shit
Acapella is my really real not hot music
But who cares, you better sit on that chair
And let someone rape your ass while I get the cash
So everytime I really wanna have a babe
Everyone thinks that man will never have a date
So if I was very pretty then I could have a rate
Dude I think I'm soon jump out from the stage
My life is better than your life ever will be
Cause my life includes no drugs and thugs
Cause my life, includes only love and hugs
So that makes me to not give a fuck and...

Chorus

End:

Nah, just kidding

it was only some bullshit

Fuck it!
