--Verse1--

I'm sitting back now with zig zag leg how

Nowhere I should get so you should listen to this

You wanna skip it? you don't get it? or you wanna shit it

Listen to this cuz this is the best thing

The answer's yes if you wanna have sex right guess

Let's go to the bedroom and take a sleep-rest with miss
fool

Oh she tries instead to be a fool she tries to be miss
cool

Well should thought about that before you ruined your
school

Joel says:, Max is a brax

With his axe for using

to kill his ex cuz he

didn't get his sex

You threw a girl in the snow

and thought your feelings would go

Well the answer is no

Come on hey listen to me it wasn't my fault

Don't blame me, after all I reached my goal *Inside
Max...*

Heal this kid, he really needs it

He can't live without it, he eats no shit

Oh, please revive my best friend

Who died by two damn motherfuckers russians

Max Max! This is inside Max!

Could you shut up and could you please stop

to act that stuck up are you fucked up?

Don't screw your shots that's all you got

Don't play hot cause you have spots

And then I can count that you have a lot of them

Stop say if I was pretty then all girls would get me

cause you don't get it you only think it gets ugly

Well, you see, that's how I think

Mr.ShyGuy does still believe it

--Verse2--

Before the new year papa get frenzy and crazy

Throw the table then scream in front of Julien

Do it again give me your pain I wanna see you insane

You must yelling on me for everything -Feedback @
2003-

He hoes on me It always goes on me

The most evil thing you ever have seen

And think I'm only kid and you're over 40

But you still act stupid You treat ME like I would BE

a piece of shit well have you taste it before you raised it

The only thing you learnt it was rage and how to play
gay

But it will come one day when I can live on my way

And then it will delays before I pray

that I wanna come back to your place

But you'll see me on the stage

You will see my face

You will that I got not

The damn same human race

I got not the thing you maybe think

I'm Mr.ShyGuy who always lies and he tries to fight

against his father everytime he wanna sleep at the
night

Mr.ShyGuy who wanna spy in women's business

and pry more inside to see their things we boys call
nice

I got fade lips that's why I never had my first kiss

Boys always wanna see girls things and a strip always
shows it

Oh here we go again we gonna go in

and I gonna show you one thing and you'll never
believe it

Oh And please could you forgive me now

If it hurts your weakest feelings somehow? *haha*

--Chorus--
