Intro#

Society

Hello Society

How many people have views

and about our beautiful society?

All smoke, snuff and alcohol are spreadin'

And it looks like the parents are not listenin'

They maybe think I'm just a kid who is writin' all this shit

Well shall see listen now to me

Verse1#

I'm livin' in fuckin' a unknown town

I'm bringing many people here down

We many got same views

And these same beliefs

Someone must say it and that's me

I only dear to say it

How we feel this shit

Through my words and your views

We see things

We didn't see

How the kids are feelin' and thinkin'

The clock is ringin' and parents are not listenin'  
What's reality There's no gravity  
We're not in a place called space If you think it  
We maybe got the same face But different days  
We're livin' on different ways But it's still saying  
That we're paying too much for this praying  
To have a better world I know we all wanna hurl  
I know what you wanna say tell me it on your way  
That I'm totally insane well it did come again  
But I just did explain

Chorus# X2

Hello Society, We love it  
Hello Society, Wanna hear about it?  
Hello Society, Why are so many people dying  
Tell me it now Don't be a lyier again

Verse2#

Look at me Listen to me  
What can you see  
What I wanna be? Well would you like to be it?  
No you wouldn't like to be it But you're not it  
But I wanna be it and I am it now  
But I take all shit, All pain everyday  
When people in secret say that I got a ugly face  
But I wrote it and spoke it now So I don't care  
But you know that I really dear to swear

When I wrote this shit I couldn't almost not believe it

That this is true But maybe not for you

Many hate the school

But They are only fools

But They still think that they are so damn cool

I write what I experience

For me it makes sense

Girls judge boys for age

Sure in 18 years old then you're really mature

A bullet in your head in Sundsvall

Then you're with your gal

There's so much peace?

But most of this is only shit?

Chorus# X2

Verse3#

People say that I'm too young for things

They always think that I can't understand it

But I do it But you don't believe it

I can't prove it cuz I got no chance to do it

I wrote shit and spoke a lot of shit about people

But my word means nothing It means that I'm not evil

But you think it That's why you are avoidin' me

But don't ignore me Because you hate me

You only have to take me for a person you always have  
know

If I'm too anyoin' for you you only need to go

Yo So..

You don't have to hesistate

You don't have to be afraid

Because I am a really nice friend

Listen now:

I am whole lonely alone

At the home I wanna go

To the one I love right now

And say I love ya

I don't know what I say

But I like to do it anyway

And maybe someday or no day

I will stand on a stage

And share my all kind of rages

In front of all these faces

Who came from all these places

Just to see how I am raised

Yees, Well I guess

Or hope just but not too much

It might happen, not!

Chorus# X2
