--Verse1---

I guess you never have seen me before
I danced breakdance on the floor
The thing I don't get paid for
People see me and laugh more
So let's go to the core
"Hello girl" she smashes the door
She's not so sure
I'm the...
"awww...hey, look here, you swear,
that you don't dear to fear? You hear?"
and she said...
nah nothing, cause she's dead
someone shoot hers head *haha*
Everyone criticizes me
"Mr.Shyguy he always lies you know why
look at him he walking
and speaking like Eminem
he thinks he'll turn like him"
"Yeah I'm sure you'll do it"
Yeah I know I'm ugly and that I got a lot of damn spots
But not worse than that girls wanna destroy all my
shots
People think, that they know how I think and what I
thought
But my words as came to the world was something I
brought
Kids shouldn't fight kids shouldn't fight
And think, their parents always say it sometimes
And they say it to learn them what's wrong and right
And then we expect that they'll never hit someone
Of course they'll fight sometimes in their life
If they didn't they would cry and die so they'll try?
I'm not the worst thing
Well, I'm the number three
I know If It sounds hard to believe
But you see I'm just me the only thing I can be
It's the only thing I've always been and you've seen

But If you still feel this isn't for real
Then you better listen to it,I mean this shit, here it is.....

--Chorus--X2--

Cause I'm the MrShyGuy
Who does not give a fuck
I call girls for slut
and I act stuck up
So couldn't I just, please shut up, please shut up, I will
not

--Verse2--

Let's say you got a nephew who spews
Do you?Not? Well I have,so fuck you too
Do you think I got enough nerves
I always lost my words When I speak to a girl
"But ShyGuy,if you success,would you be happy?"
Why? So you guys stop lie and wanna be
my new friends as the populars guys had
It would be too bad and so sad
don't turn me mad cause then you won't be glad
It's then I turn crazy as my really big dad
Stupid people, you all act evil
"He's cute on the internet, but not in real, hee hee"
Many rather download the audio on MP3
than to see the music videos on the TV
I wish you all had the venereal disease
I wanna sleep
But you always start to annoy me
Everybody might suck but I do not
Cause I'm not hot,I got spots,
No shots,I never thought that I brought,
Was something that, people would have caught, but
what?

--Chorus--X2--

--Verse3--

I can control your feelings
by saying these wicked rhymes and sicked words all

the times
but I can do one thing to be nice to you all so you don't
cry
but I won't try cause I got a life
I don't live in groups who can't say a view without
analyse it too
and I'm not like you cause what I say is always true
I'm not a fool who thinks he's so cool
and it's that, I don't smoke or take snuff
outside the school when I got nothing to do
I rather study than play truant for funny
and I don't fuck for money and I got no honey
I won't lie for the authorities so I can gain my company
I'll try everyday and find someone to co-operate with
I give other shit and don't take shit and that's it
and I think that's great well my friend isn't it
The world is insane yes
and the girl gives me pain
everyday every moment every minute I live
and that's it (what?) oh yes that's it!

--Chorus--X2--
