Intro:

Sweden! Lalala!

I Live here!

People here, around the, world!

Listen to, me for, a minute!

Verse1:

No more sniffing glue I'm here for you

To tell the truth you know what is true

I like to rap and you like to hear my crap

I will that and, you will listen to that

I'll take your body and shake it and bake it

Hate it well It's too late for it

I'm sorry bitch but I gotta go far with my new car

Probably to the hugest closest star, YO!

So I don't have to be a part,

of the next nuclear war that you'll soon start

You'll all die and I'll survive

my whole life All right I'll fight, Ja ja ja ja!

Chorus X2:

So rap now

Do crap somehow now

Just do it now

Cause we got all the time

This is not a crime

This is just a rhyme

Come on baby

Rap with me...

Verse2:

While I look for new tracks I can look back

It's then I see that I am under attack

But no one cares, no one fears me

Everyone says that they hate me

I hope you're ready I'm mean your baby

That she is soon raped and leaved in a cave

And not safe and won't be saved but she is made
to get raped everyday,

Well this is what we do babe

This will happen if you want to date

Understand that this is what you should hate

Do it before it will be too late,

Yeah you always laugh to the truth

Like this cannot happen to you

You don't really know what is true

You always think you'll survive in your crew

You know that you will soon spew

Cause this is worse than the american news

More worse than what Hitler did to the judes

I hope you're ready to tell this to your nephew:

"I'm going to soon drink some spurn when

someone can help me to hold it like my girlfriend

But she's not enough good for it so she hurls then

She faiths too and I got to call all hers men,

I don't know how she fucking dears

She had a love-affair that's not fair

Cause I don't have sex everywhere

Only here, not there cause I don't, wanna, get RaPeD!"

Chorus X2

Verse3:

Look at the times look at my rhymes

Cook all my rhymes for the dinner now

Lick my dick if you make me sick

If I say If was gay would like then some AIDS?

Please take, your lovely dick, push it in in, the floppy
disk

Cause no one else, does the shit, *hee hee hee hee
hee hee hee hee*

Keep eating there's more to feed

Keep shiting there's more to seed

I don't get it I won't get heavy

I just wanna get you baby, hey and that's me

Who is me who is she

Who is he hey it is me

if you remember me It was me you saw on the TV

Now I'm flipping out I better shut my mouth

Before, I receive a punch

in my face oh great we're back again

in same ways like we do everydays

(but we are we?) we're in United States

This will happen when you go on DaTeS!

Chorus X2
