### **"Silent Gun"**

Visit "[Silent Gun](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I reside the vacant sides as the sky turns gray ( sky  
turns gray)  
Paralyzed in my disguise I will fade away

Now I hide away from me, I can not fight this disease

I fell into the cracks in my head that's where I lost it  
That's where my world went wrong cause the night I  
crossed it  
I couldn't stop there cause my mind was gone so my  
sadness  
Has turned to madness you'll know that I have become  
the silent gun

(The silent gun)

What I thought was right turned out the light deep  
inside of me (inside of me)  
Once was alive but can't revive what I use to be

Now I hide away from me, I can not fight this disease

I fell into the cracks in my head that's where I lost it  
That's where my world went wrong cause the night I  
crossed it  
I couldn't stop there cause my mind was gone so my  
sadness  
Has turned to madness you'll know that I have become  
the silent gun

(Guitar solo)

I fell into the cracks in my head that's where I lost it  
That's where my world went wrong cause the night I  
crossed it  
I couldn't stop there cause my mind was gone so my  
sadness  
Has turned to madness you'll know that I have become  
the silent gun  
Facing me, silent gun, facing me, silent gun
