[Verse 1:]

I'm on the move.  
I don't wanna lose what I came to prove.  
(It's everything)  
I expect myself to be.  
And I'm gonna do everything I set out to.  
Making my dreams come true.  
It means so much to me.  
You could never understand how I feel when I'm  
searching for the words to say.  
And I don't wanna be nobody else.  
Take the time and get to know me.  
(The real me)  
And you will see yeah...

[Chorus:]

(I'm just like you)  
I'm tryna take my time and get to know me.  
(I'm just like you)  
Tryna live my life and take care of mine.  
(I'm just like you)  
I'm tryna be happy.  
(I'm just like you)  
Ohhh....

[Verse 2:]

I wanna be the one who you can depend on.  
And when it feels so bad know I can handle it.  
Cuz I've been through so much, oh.  
It's so much I've overcome I had to look inside of me  
and see just who's inside of me.  
And know who I need was me.  
(Oh, it took so much for me just to see it's all in me)  
You could never understand how I feel when I'm  
searching for the words to say.  
And I don't wanna be nobody else.  
Try to take the time and get to know me.  
The real me.  
And you will see yeah...

[Chorus:]

(I'm just like you)  
I'm tryna take my time and get to know me.  
(I'm just like you)  
Tryna live my life and take care of mine.  
(I'm just like you)  
I'm tryna be happy.  
(I'm just like you)  
Oh..

[Bridge:]  
You know blessed be the Lord my strength.  
Which teaches my hands to roar and my fingers to  
fight.  
Through it all he's protected me along the way.  
And I wanna thank you.  
Cuz without you I'm nothing.

(I'm just like you)

I know it gets a lil hard.  
But he will take care of you.  
(If you trust and believe and have faith)  
Ohhh...  
And if you...  
(Look in the mirror, look in the mirror, what do you  
see?)  
(Look in the mirror, look in the mirror, what do you  
see?)  
(Look in the mirror, look in the mirror, what do you  
see?)  
(Look in the mirror, look in the mirror, what do you  
see?)
