you choked  
but i will not be as weak as your throat  
i don't care, i was on your side  
as soon as we met

you complain, this heart's had its beating  
but i will be your faith  
who knows when it will end  
you're going to live through me  
and i will be over it  
as soon as i can

i've known pain  
but never as much as on my first day  
i don't care, i do not remember it  
and soon i'll forget this as well

you complain, this heart's had its beating  
but i will be your faith  
who knows how long it will last  
you aren't going to live through this  
but i will be over  
as soon as i can

soon as we turn in
