Walked a hundred miles till I saw you
Drove thousand of roads but they all lead to nowhere
Now all I know is that I adore you
And I want you near

You're the one with the million faces
You can be all four seasons in one day
There's nothing like us it's just the way it is
Why did you have to walk away?

Now I see pain in your big green eyes
Now I see pain in your big green eyes
I see the pain in your big green eyes
And I don't know what to do
He's left but I've been missing you

Another hundred miles without you yeah
So many questions ask the sun in the sky
Too many answers without an answer
There's no reason why
I still see pain in your big green eyes
I still see pain in your big green eyes
I see the pain in your big green eyes
And I don't know what to do
He's left but I've been missing you

The more you want the less you get
Some things are left unsaid
It takes time in the end
I'll comprehend

Now I see pain in your big green eyes
Now I see pain in your big green eyes
I see the pain in your big green eyes
And I don't know what to do
I don't know what to do
He's left but I've been missing you
