"Cat's Cradle"

Faces pillaged of expression
Homogeneous nuclear family units
Holed up in external as public eye sees fit
Vaccinated against free will

Self-deluded by our nature
Or the blank scope of ourselves?
Screening decisions-integrity cremated
Chaperoned orientation to fiscal

Better homes and gardens or killing fields
A deeper sense of nothing, of alienation.

Negotiate self as target
Of assimilation

Controllability of linear people
Autistic configuration of a cohesive identity
Inarticulate posture
Only serves to undermine self-determination
